## Can two officials share an email address?

Monday, July 05, 2010

Officials cannot share an email address with someone else because ArbiterSports uses email addresses as a means of identification. If two officials try to use the same email the system will merge them and one will disappear. Officials must have separate accounts. If an official needs an email account they can get a new one from various websites such as [Gmail.com](http://Gmail.com), [Yahoo.com](http://Yahoo.com), or [Hotmail.com](http://Hotmail.com).
